## SUMMARY

Multilingual(EN, FR, PT) front-end developer comfortable working with JavaScript(React, React Router, Redux), CSS(Bootstrap, Tailwind, Modules, Styled Components), and HTML to deliver good-looking reusable components to provide and excellent UI in websites for clients.

## MY WORK

**Front-End of Trebuché E-shop**, <https://riuqlav.github.io/trebuche/>

- Revamped UI and app interface for the e-commerce site using Styled Components.
- Developed more than 100+ reusable components used throughout the organization.
- Implemented mock data to present the layout of the login, register, products, filters, etc.

**Full-stack Project, Bar Crawl Meetups**, <https://riuqlav.github.io/bar-crawl-meetup/>

- Execute Create, Read, Update, and Delete (CRUD), using Realtime Database.
- Use of React hooks, route, Firebase Database, and Storage.
- Styled with CSS Modules.

**Save Your Job Game , The Odin Project**, <https://riuqlav.github.io/save-your-job/>

- Design boolean logical operators and event listeners for the game in JS.
- Followed rules dictated by the challenge.
- Structured the website with HTML and CSS.

## Education

- The Odin Project, JavaScript Paths.
- Bachelor's Degree in Computer Science and Mathematics, UFF, Federal Fluminense University.
- Installation and maintenance of computers, SESI-SENAI.
- Maintenance of Local Networks, SESI-SENAI.

## Hobbies

- Meetup organizer for city newcomers.
- Amateur tropical plant collector.
- Brazilian jiu-jitsu blue belt.
- Philosophy enthusiast.
